4. *Jordan Peterson and Bill C-16*

5. In 2017, the Canadian government passed Bill C-16, which controversially
 6. amended the Canadian Human Rights Act to outlaw discrimination against
 7. gender identity or expression. The bill was intended to protect those who
 8. identify as transgender. Such individuals may wish to be identified by pronouns
 9. that contradict their birth-assigned gender, or by “genderless” pronouns such as
 10. “they”. University of Toronto psychology professor Jordan Peterson strongly
 11. opposed the bill, declaring he would not refer to his students by their preferred
 12. gender pronouns on the ground that it constituted unlawful, compelled speech.
 13. “These laws are the first laws that I’ve seen that require people under the
 14. threat of legal punishment to employ certain words, to speak a certain way,
 15. instead of merely limiting what they’re allowed to say,” Peterson asserted.
 16. His stance attracted global media attention, sparking protest at campuses
 17. across the nation. He received two letters from the university’s administration
 18. warning him that his refusal could be considered discriminatory. Still, no
 19. formal disciplinary action had been taken against him.

Then read the “sample answer”. 3. Tell student to close their eyes. 4. Let them repeat after you again. Because student can’t see the answer. 5. Have the student try to memorize the student answer. 6. Once they have memorized the answer, ask the question one last time.*

21. **1) What did Bill C-16 passed by the Canadian government do?**
22. **1) It outlawed discrimination against gender identity or expression.**
23. **2) Why did professor Jordan Peterson declare he wouldn’t obey the law?**
24. **2) He said it constituted unlawful, compelled speech.**

25.
 26. Peterson’s objection to Bill C-16 stems from his conviction that the radical left-
 27. wing professors are inserting neo- Marxist ideology into the social sciences by
 28. playing on their students’ passion for social justice.
 29. He accuses these leftist philosophers and sociologists of casting aside objectivity
 and logic in favor of “identity politics,” as a way of transforming the traditional
 Marxist concept of class struggle into one based on “oppressed” versus
 “oppressor” groupings.
 30. Peterson maintains that identity politics –in which identification with a group
 31. classified by gender, race, culture, sexuality, or another signifier is considered
 32. paramount – has sown seeds of discord within contemporary Western society.
 33. The artificial divisions between such groups are enforced by characterizing any
 34. challenge to them as “hate speech.” Peterson alleges this politically charged
 doctrine has not only taken root in academia but has also crept into local
 government, and is now beginning to make its presence felt in policymaking at
 the national level, as shown by Bill C-16.

 38. *3) He accuses them of casting aside objectivity and logic in favor of "identity politics."*
 39. **4) How does Peterson allege the artificial divisions between groups are enforced?**
 40. *4) He alleges they are enforced by characterizing any challenge to them as "hate speech."*

41. Critics say Peterson has misinterpreted the bill, which was intended to extend
 42. to transgender people the same legal rights and protections that are afforded
 43. to minority racial, ethnic, and religious groups. His argument that it will force
 44. him to use language he does not consider legitimate – or risk being hailed—has
 45. been rejected by the bill's supporters. According to University of Toronto law
 46. professor Brenda Cossman, the bill is not intended to legislate pronouns, but to
 47. ensure that a person's self-identified gender does not bar them from
 48. employment or subject them to discrimination within an institution or
 49. workplace. Cossman argues that no Canadian court would ever rule that
 50. pronoun use could cross the line into hate speech. While Cossman is likely
 51. correct, it can also be argued that rather than being an example of overreach,
 52. Bill C-16 may actually be insufficient to protect transgender individuals, whose
 53. risk of being bullied or assaulted is far higher than average. Research shows
 54. antidiscrimination laws have a limited effect since declaring all people to be
 55. equal does not prevent the continuation or even expansion of the social and
 56. economic inequalities that afflict many minority populations.
