## Stage 3 Lesson 126

### Comparative

cheaper ...than  
more expensive

### Superlative

the cheapest  
the most expensive

### Remember:

adjective with one syllable, like "cheap", we make the comparative by adding the letters "er" and we say "cheaper than" and for the superlative we add the letters "est" and we say "the cheapest".

adjective with three syllables, like "expensive", we do not add "er"; instead, we make the comparative by using the word "more", and we say "more expensive than". For the superlative, we do not add "est". Instead, we use the word "most" and we say "the most expensive".
